# Not The Wall

The other wall is not a tribute to the legendary album of the same name. The wall like many walls are always being looked at from many different perspectives. I see art on the wall this is the album of my art on my wall not THE wall but the other wall.

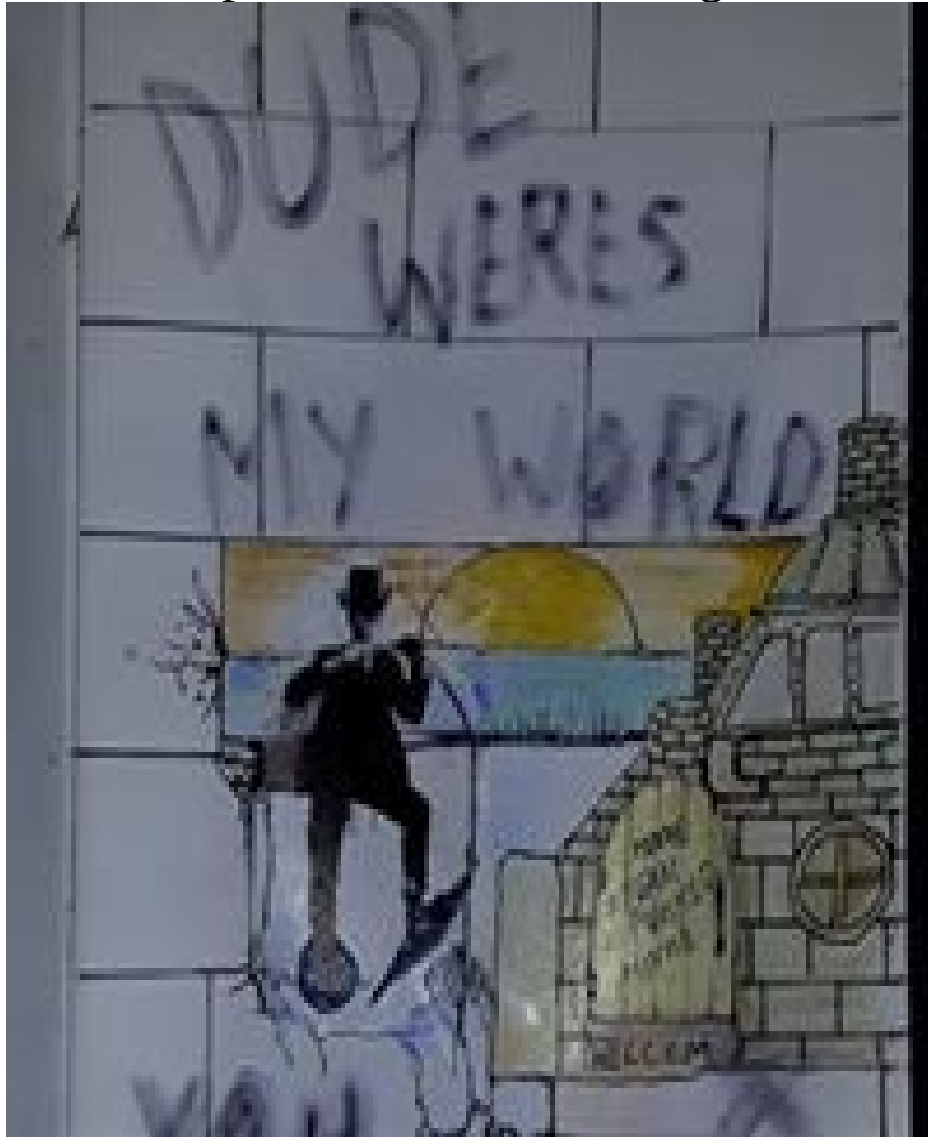

The sounds heard beyond the wall are strange and unusual. The faces in my mind become the faces in your mind. Terror and hell and sometimes peace but mostly monsters and landscapes.

The games have changed but the players play 2d 3d you and me ds2us. We are controlled by many outside forces but the mind is unlocked on this album, with a feel for the acid experimental 70s being from 1972 I was not part of the pink

but rather the Punk flo-oi-ds 8bit and all. Schlock metal is also herd on this album but you will have to hear it to find it. Welcome into the mind and art world both audio and cerebraly a twisted peace as we walk along feel it.

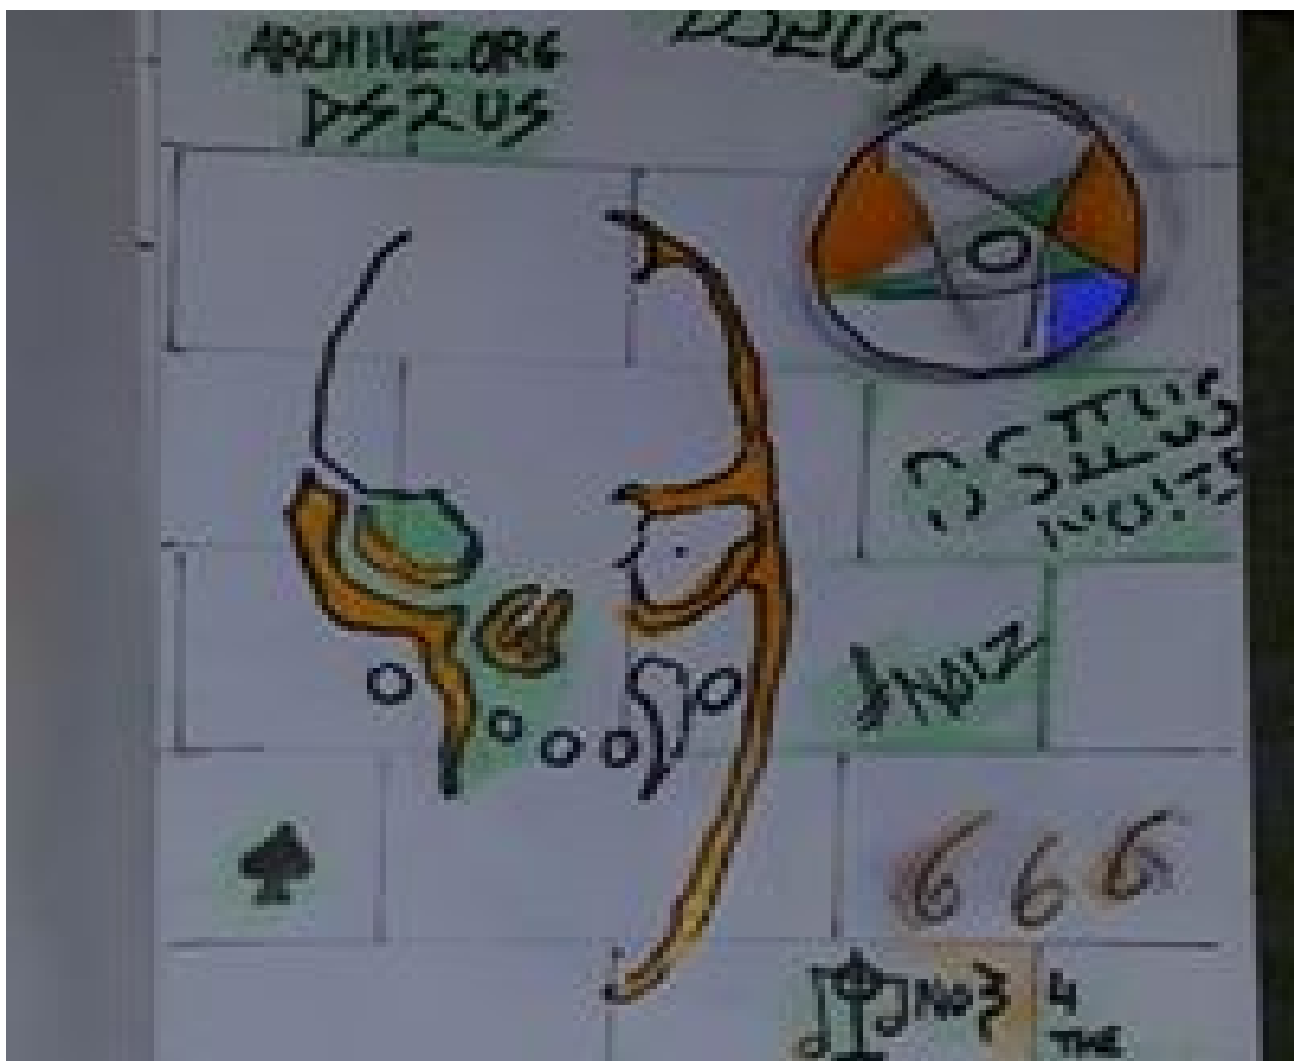

The words you are here are not seen but are on this page, you are were you are when you are there but if you were to be in your ideal place were would you be if not there.

Peaking through the wall The pincherhorn demon sees you and what you do. A warning is heard before the wall comes down and when it does he sees you and what you do.

They all climb out from the wall like your nightmares they creep telling symbolic truths mixed with metaphors of emotions.

At the bottom of this pic the term #SCHLOCKMETAL referring to hashtag you will find some schlock metal I have done they are very much from the heart schlock meaning trash is more a term of endearment as I love the underdogs of metal.

The power to the skull and the backbone amped up to mega amps.

The writing is on the wall every wall has a story.

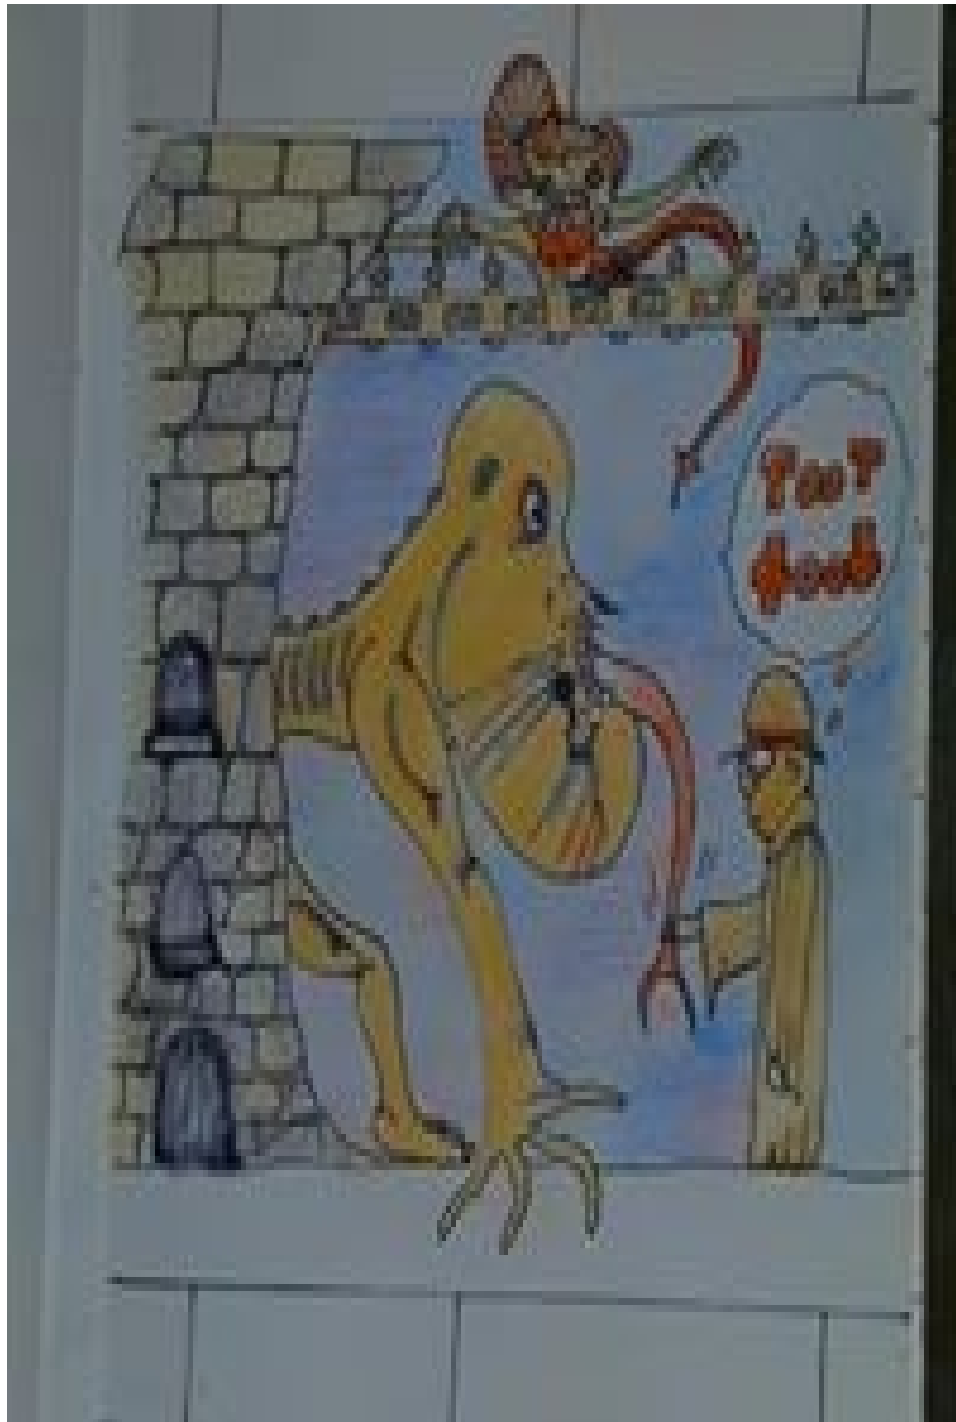

The days of the arcade are done but behind the walls all old school gamers are still ready we hear the echoes of metal and 8 bit blips and bleeps.

In the madness a mad plant grows through the cracks in the wall.

Terror  
creeps out as well  
like a bell from hell

Pull the tongue of the demon that raspberry your dreams and

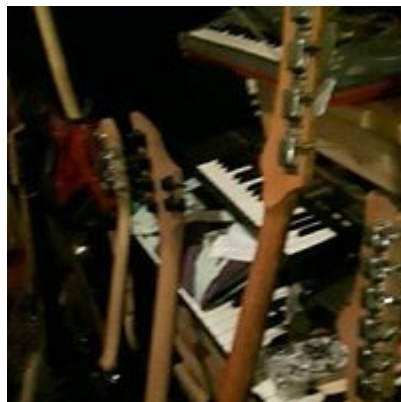

poopoo coat your otherwise free dream of freedom and being free. Don't dream it be it so your not living the spooky horror picture show.

Can you put your hands in your well no but they can come out if you are just mad enough and by mad I mean bat shit crazy.

Behind the mask of fear is an innocent misunderstanding like always fear is only one understanding away from being a chibby little guy and a friendly snail or should I say a non homeless slug. We learn from the writing on the wall.

DS2US all music is improvisational made with yamaha  
digital synth from the 80s a Casio sk1 Beringer mixing board  
rock band drum kit wired into a pearl drum brain. I was  
moved by epic albums of experimentation now I do not  
dream it I BE IT.

of just ask me I will post them up again.

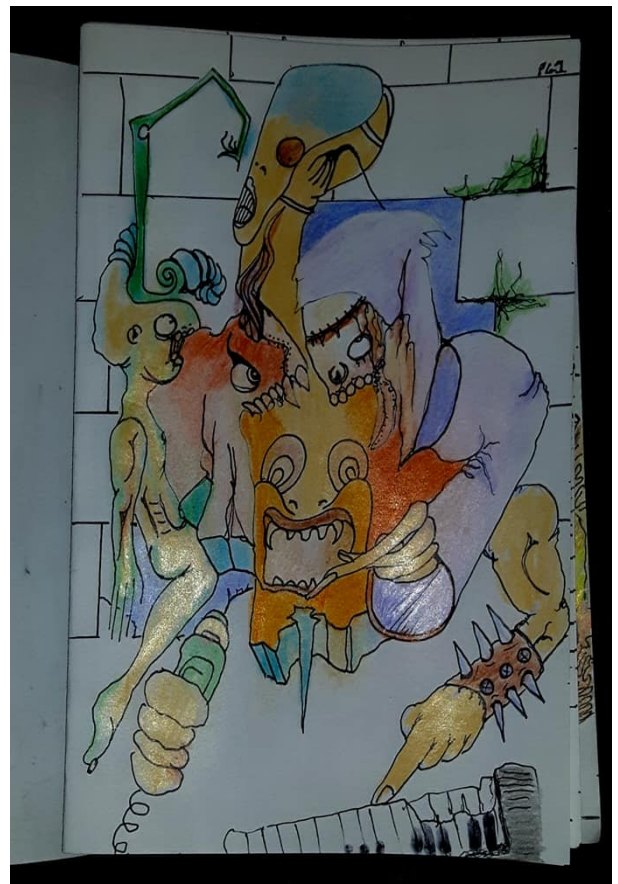

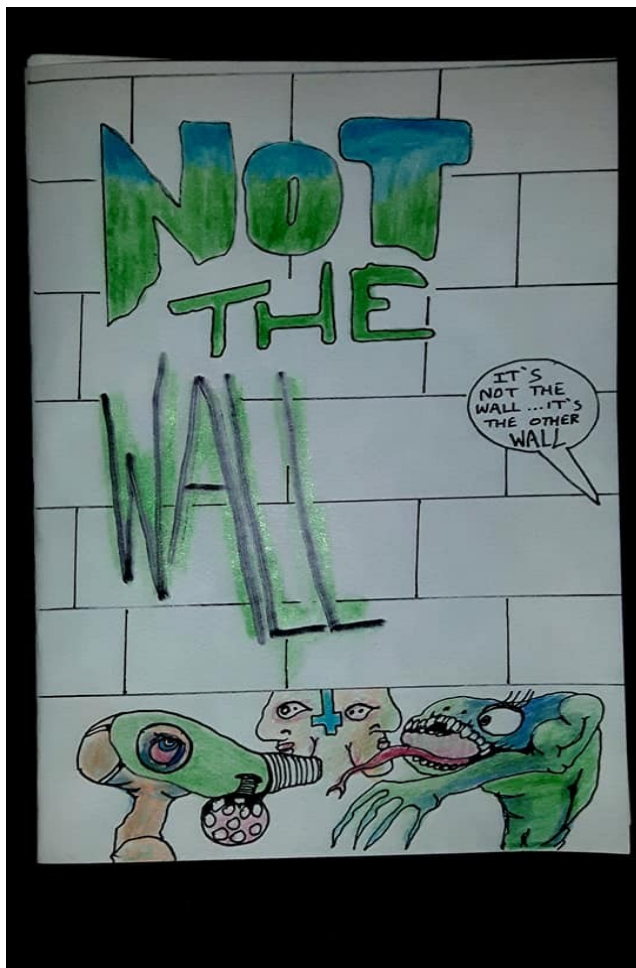

# The other WALL

it plays like a movie in your ears.....

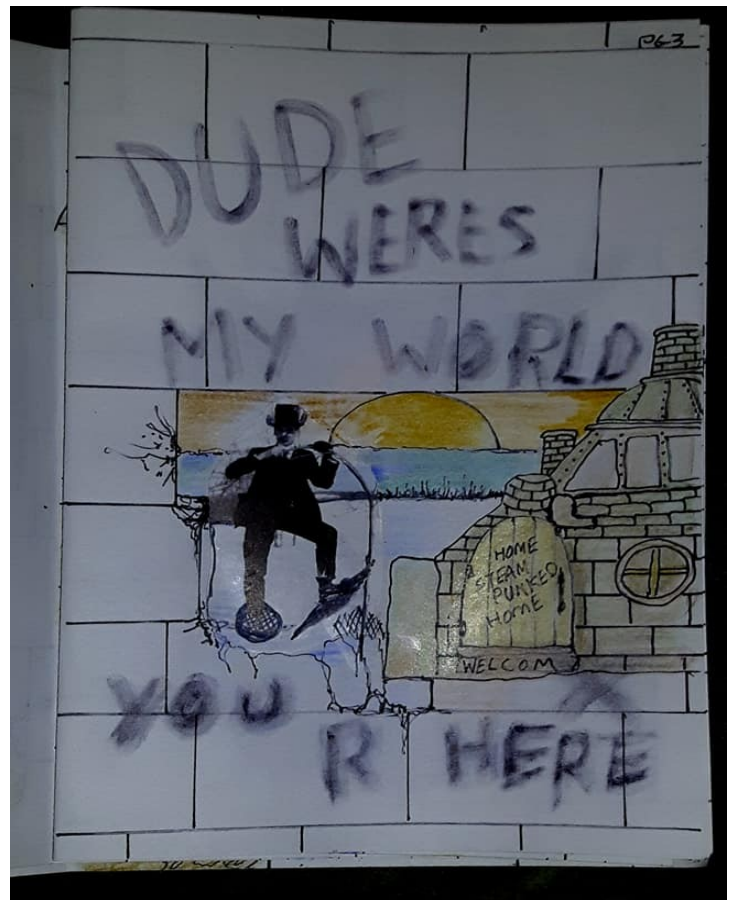

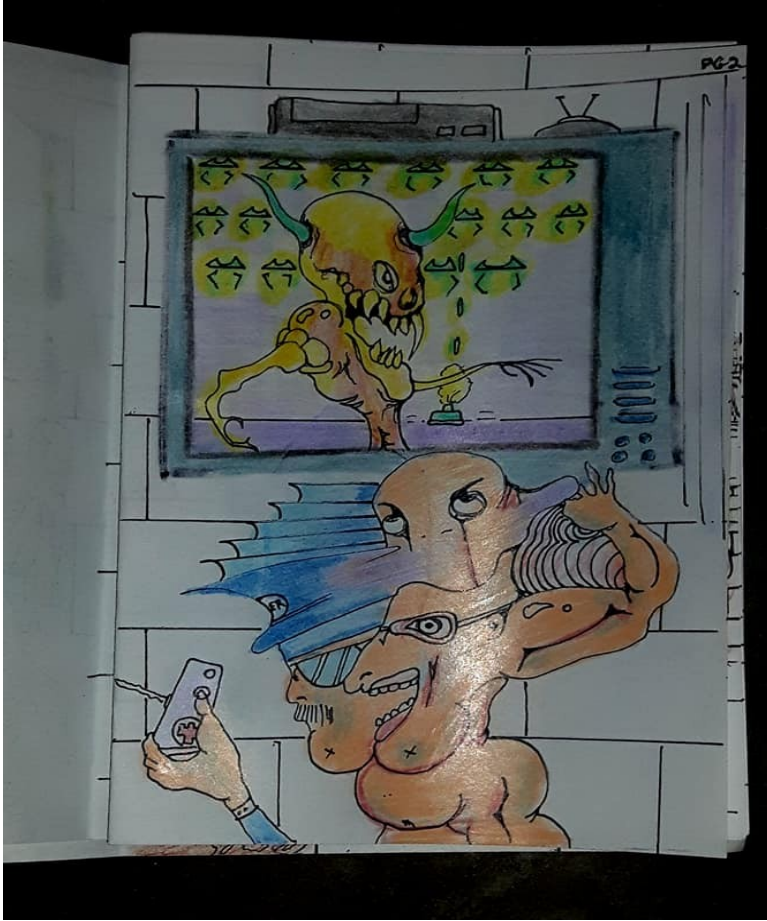

its the last sound you hear before you go insane ....

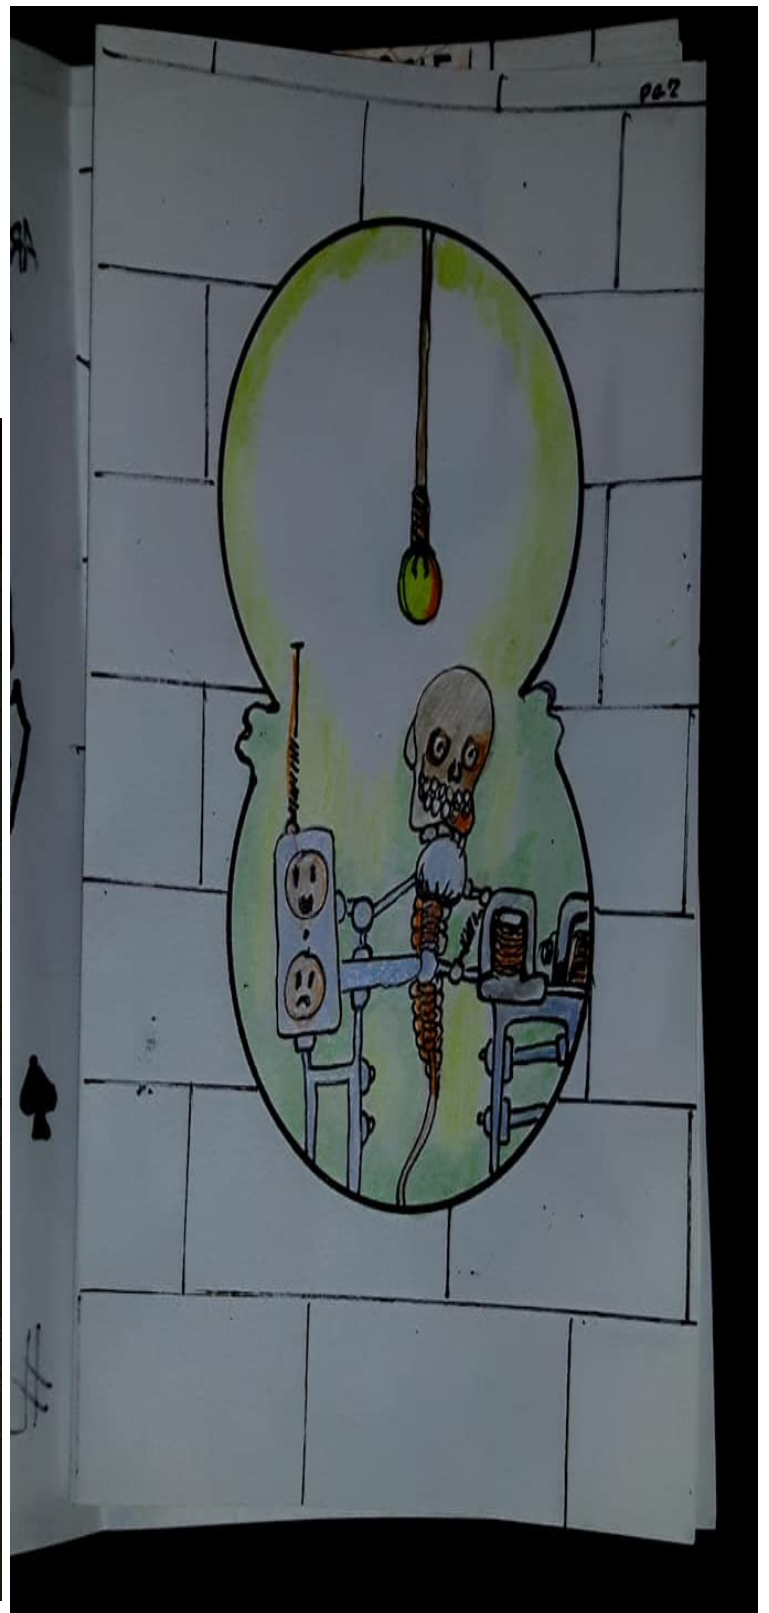

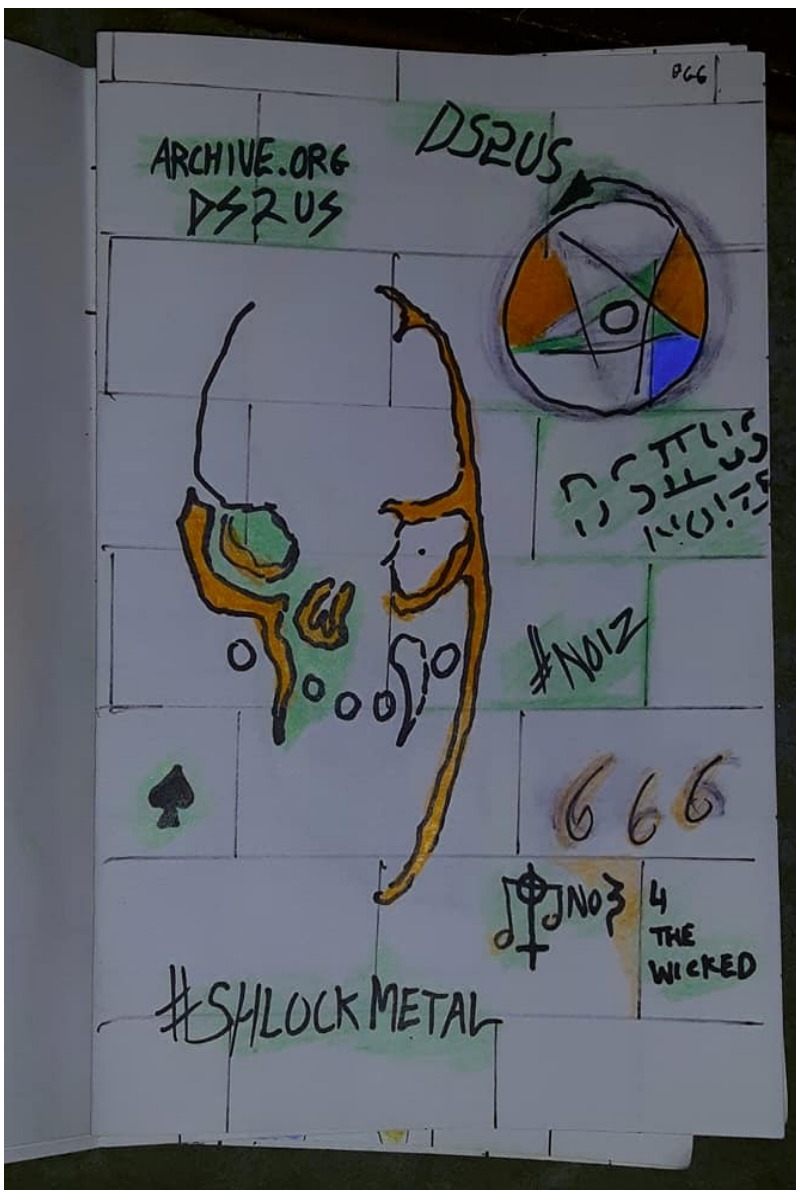

terror is a lot more intense when you close your eyes and you still have the images these sounds invoke.

Cicil and Eggbert give it two thumbs hovering in the middle of stinker and brilliant encore viva DS2US
